

REDEFINING SUNSHINE

K11
a i r

EXPRESS YOUR INDIVIDUALITY!

For the first time, a solarium is using LEDs for the spectra of UVA, UVB, and red light. This opens up completely new possibilities to make your tanning experience even more individual. Choose your dream destination, shift the sun to the desired time of day, and enjoy your short getaway.

SUNRISE

EXPERIENCE THE SUNRISE ON CAPRI, ...

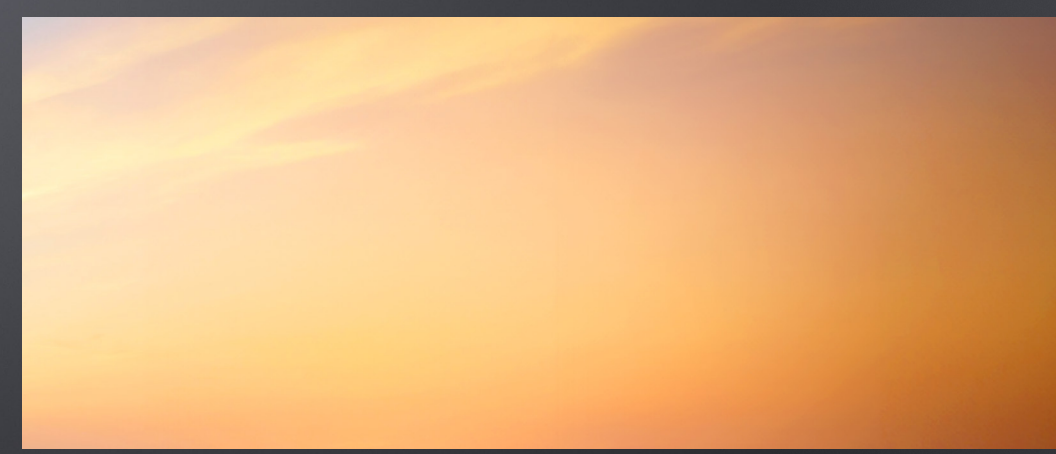

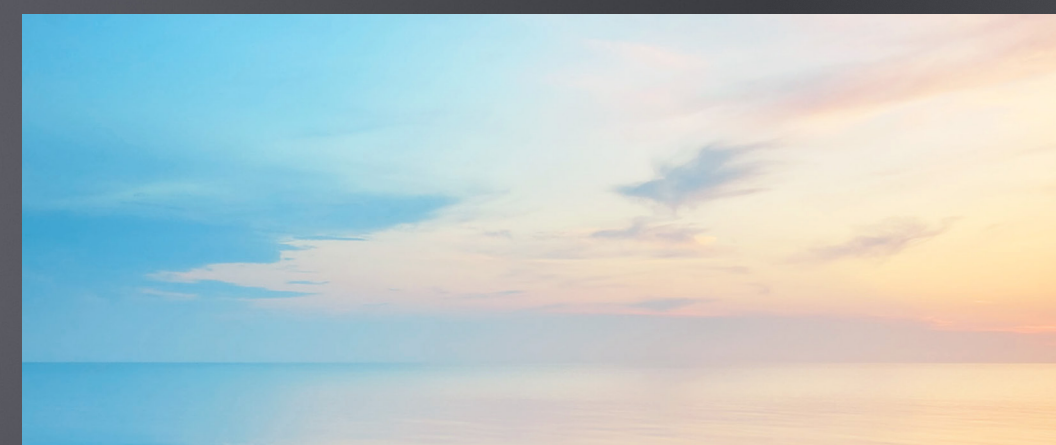

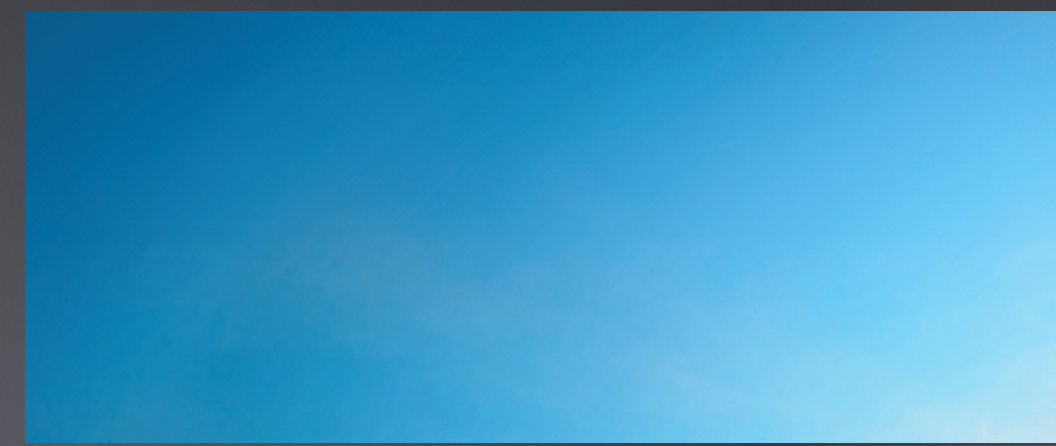

PEAK SUNSHINE
